

Oscar Lopez Conde

Business Intelligence Developer | Data Analytics | Power BI
Barcelona | oscar.lopezconde@outlook.com | Portfolio | LinkedIn | Github

SUMMARY

Business Intelligence Developer with 3+ years of experience building end-to-end BI solutions in enterprise and client-facing environments. Specialized in Power BI, Domo and SQL, with hands-on experience in data transformation, semantic modelling, KPI development and dashboard delivery.

Experienced in translating complex business requirements into scalable reporting solutions, troubleshooting data and modelling issues, and working directly with clients across Spain and EMEA.

EXPERIENCE

Concentrix Barcelona
2022 - Present
2023 - Present
Business Intelligence Developer · Hybrid
Design, build and maintain Business Intelligence solutions for contact center and workforce management analytics across a portfolio of 100+ clients in the EMEA region.

- Develop end-to-end BI solutions covering data transformation, semantic modelling, KPI development and dashboard delivery using **Power BI and Domo**
- Developed, enhanced and maintained **20+ BI reports** to support operational and workforce management analytics
- Build advanced **DAX measures, Power Query transformations and analytical data models** for complex reporting requirements
- Design and maintain Domo pipelines using **Magic ETL, DataFlows, Beast Mode and SQL** while developing and optimizing SQL transformations across enterprise data sources
- Work **directly with clients** to gather requirements, present and deliver BI reports, and **translate business needs** into actionable KPIs and reporting solutions
- Migrate complex, spreadsheet-based reporting processes into scalable **Power BI and Domo solutions**, replacing large and difficult-to-maintain Excel reports with structured BI solutions
- Develop analytical solutions for **productivity, SLA, AHT, CSAT, NPS, forecasting and operational performance**, translating operational requirements into actionable KPIs and reporting
- Troubleshoot complex BI issues involving **granularity, aggregations, relationships, filter context, DirectQuery, Composite Models and Analysis Services connectivity**

Service Desk Systems L2 Technician · On Site 2022 - 2023
Provided Level 2 technical support across enterprise hardware, software and infrastructure environments.

- Troubleshoot enterprise hardware, software and systems issues
- Managed **Active Directory** administration, user provisioning and system access
- Used **PowerShell** for task automation and systems management

Philips Barcelona
Sales Representative 2021 - 2022
Specialized in high-end Philips televisions at El Corte Inglés Diagonal, combining product expertise, consultative selling and customer relationship management.

- Sold **100+ televisions** in a highly competitive retail environment
- Recognized as a **top salesperson in 2021**, doubling the previous year's sales
- Built relationships with hundreds of customers and recommended products based on their needs
- Earned additional incentives through performance on challenging product categories
